

February 14, 2023

To Our Residents and Family Members:

We have had no additional cases of COVID since our positive case on 2/4/23. Staff are now able to go without wearing masks. Visitors and residents can continue to go without wearing masks as well.

We are still asking family members to sign out the resident when they leave and sign them back in when they return at the reception desk. However, family members will no longer have to sign the Negotiated Risk Agreement when taking a resident out.

This will be the last letter that gets posted on a weekly basis unless we have a positive case of COVID at the facility or there are changes in guidance that we need to communicate.

Sincerely,

Gabe Stoll
