

March 31, 2021

To Our Residents and Family Members:

Monday, 3/29/2021 we tested all staff and had no positive results for COVID-19.

We are currently having activities for residents. Residents are required to wear a mask at the activity and proper hand hygiene is being practiced along with residents being appropriately social distanced. Dining rooms have also been opened up for use. Residents are able to come to the dining room if they wish for meals and sit one resident per table. Beautician services are also up and running.

On Monday 3/29/2021 we implemented new guidelines for visitation. This has allowed for residents that have been vaccinated to have visitors visit them in their rooms. For residents that have not been vaccinated, we are still following our old visitation guidelines where visitors can come and see them in a designated visitation room that is in front of our receptionist desk.

On Monday 4/5/2021 residents and staff that have not received the vaccine will have an opportunity to receive the first shot of the Moderna vaccination here at St. Francis if they choose to do so. The 2nd dose of the vaccination will then be given four weeks later.

We are still encouraging family members to connect with their loved ones through video chat, calling, texting, or other social media formats.

We know this continues to be a difficult time for everyone. We will continue to update you as we have updates to give.

Sincerely,

Gabe Stoll
